"FRESH FROM THE GARDENS"

## World Co-operation in Prospect

Events of the past few weeks have concentrated attention on the interdependence of the nations of the world, and by their promise of a general attack on a world scale upon the major problems of the hour, have injected new hope in suffering humanity that at last a serious effort is being made to cure the ills which have prostrated the world economic system. Conversations of leading statesmen at Washington, definite assurance that the world economic conference will be held in London next month, the prospect that solution will be found in reciprocal tariff arrangements and adoption of an international monetary unit, have all immediate beneficial effect in the markets of the world, and appear to have restored some of the confidence lost in the crash of 1929 and the bitter years since.

Canada, in particular, faces the task of committing its new crop to the tattle and with a renewed optimism and a higher courage. Assurance from Washington and Ottawa of reciprocal arrangements in the offing that will tend to reopen channels of trade long made barren and unproductive by prohibitive tariff barriers, have produced a most welcome reaction in the Prairie West. Confronted with this, however, is the easing of the general trade situation in Continental Europe where Canadian wheat has been continuing to find increasing obstacles to overcome—obstacles created by local fears and national prejudices. The movement toward world co-operation bears with it also the harbinger of such conditions as will make effectively beneficial the Empire trade agreements consummated at Ottawa, last year. With these auspicious circumstances encouraging him, no wonder the Prairie Farmer owns higher hopes with his seed this year!

The idea that an international problem can only be tackled successfully in an international way, was long in penetrating the minds of many world statesmen. This may have been due to the fact that statesmen are proverbially hesitant of moving in advance of public opinion and it is a fact that public opinion, since the war, nurtured on fears and deprivations, has been notoriously nationalistic in sentiment in virtually every civilized country. In consequence, the nations have spared defensively to evade disarmament, despite the general abhorrence of war, and have erected tariff barriers in the futile hope of developing self-contained national economies, despite the fact that a customs policy may be more protective than a tariff. The resultant stimulation of animosities has tended to retard concerted action upon the economic problems; but the strangulation of world trade with its accompanying widespread unemployment and almost universal suffering, has finally served to awaken general realization of the essential interdependence of nations, and recognition of the fact that the sure path to recovery lies through co-operation. Even France, with all her hoards of gold, has been forced recently to borrow \$150,000,000 from England to buttress the franc, demonstrating that in this day and generation no country is so organized as to be able to live of itself alone.

Generally speaking, therefore, it may be said that the world at last has become internationally minded; and that is a sign that co-operation is no longer asserting itself. In Germany alone there would appear to be a reactionary movement towards a narrower nationalism, but the movement in Germany is capable of a dual interpretation. It may be that Herr Hitler and his Nazi army have resurrected the idea of a "harmless revolution"; but it is also true that Herr Hitler has evinced a willingness to negotiate with other nations of the world not only in matters of trade and commerce but also in matters of armaments. The new Germany, therefore, while driven again into a narrow nationalistic regimentation by men imbued with the "administrative ideas of a sergeant-major" (as Gaudin would say), is likewise in the necessity of co-operation in matters of world politics and trade in the interests of world peace and world prosperity. That is to say, the rigors of the Nazi discipline would appear to be fundamentally protective of the German commonwealth against the perils within the gates rather than against any imagined enemies without. In any case, the international situation does not necessarily impair prospects of a successful solution of the world economic problem, nor weakens hopes of a restoration of normal trade relations among the countries of the world.

## Blame the Translator

British Authority Says Cinderella's Slippers Were Fair and Not

Cinderella's slippers, popularly supposed to have been made of glass, really were made of fur, according to Sir Gerald Wollaston, garter king of arms and an authority on heraldry. He told members of the Royal Society of Arts that the slipper was made of "vair," which is heraldic fur of white and blue. The other idea, he said, came from a confusion with the French "verre," meaning glass.

## Not So Good

A farmer's son once decided to be a lawyer. His father drove him into town and got him a job at a law firm. Three days later the young fellow was back home again. "Well, Josh, how do you like the law?" his father asked.

"It ain't what I've cracked up to be," said the boy. "I'm sorry I ever learned it."

The Netherlands may restrict planted areas for agriculture.

## Hold Meetings By Telephone

Post Office in London, England, Gives Cables Service

So that business men in widely separated towns can hold a joint conference without travelling, the general post office in London, England, has arranged for simultaneous telephone connection.

The matter is arranged simply by informing the post office that certain specified people in, say, London, Manchester, Leeds and Glasgow are required at a definite time. The general post office links them up and they can then each hear the voices of the others and do their business as though they all sit in one room.

Another thing that has been demonstrated is that a car going 60 miles an hour will hit a concrete sidewalk just as hard this year as it did last.

Diamonds no larger than one-twentieth of a carat so far have been manufactured at Columbia University at a cost of approximately \$5 a carat.

## Nervous Could Not Sleep Tired Out All The Time

Mrs. George Scribner, Newburg, N.Y., writes: "I was so nervous I could not sleep."

A neighbor told me about Milburn's Heart and Nerve Pills, and as she was using them at the time she gave me some to try. I found they were doing me so much good I prepared two boxes and they proved of wonderful help to me."

For sale at all drug and general stores; put up only by The T. Milburn Co. Ltd.

## House Had Gold Ceiling

Residence Of Former Chicago Bank Director Sold By Auction

The famous house with the 14-carat gold-ceilinged smoking room, lined with morocco leather—a house so luxuriously furnished it would have done credit to a fabulously wealthy Indian Maharajah—has gone on the auction block at Chicago.

It was the home of Frank A. Mohr, a real estate operator and a former director in the chain of twelve defunct Italian banks, who was indicted with other officials of the financial institutions.

The house, situated in exclusive Beverly Hills, was one of the show places of the section.

The building contains eleven rooms and sold along with it were the costly furnishings which included a beautiful hand-carved antique dining room suite of walnut, and French walnut love seats.

## HAS LOST FAT FOR THREE YEARS

88 lbs. Gone Altogether

A woman writes:—"For nearly three years I have been taking Dr. Williams' Pink Pills for Pale People, and have lost 88 lbs. of fat. My weight before taking them was 175 lbs. and it is now 125 lbs. Compare the difference—it is marvellous! My mother and I are both taking Kruschen and lots of our friends, and think they are wonderful. As I have never needed to go to a doctor, and do not need any medicine, I think I have lost my fat. I don't think I shall ever get it back, and I am very grateful to the great help they have been to me. I shall never recommend to people I think need them."—Miss K. K.

Need More Cattle Stealers

Western Brokers Claim Only Six Available For Trade

Neglect of the Dominion Government to subsidize ocean transport to enter the Canadian cattle trade is strongly resented at Winnipeg. Brokers point out that only six tramp steamers are available to this trade, that two British companies have chartered these boats and that the tramp steamer owners some months ago offered to pay half the cost of fitting up the boats to carry cattle if the Dominion Government would pay the other half.

The Dominion Government was silent on this issue. Today, as a consequence, the Canadian cattle export trade is limited only by the capacity of the tramp steamers to carry cattle. They are scheduled to carry 450 each every three weeks to British all summer which will mean that a maximum for the year of 45,000 will be exported.

Canada could easily export 100,000 head if it obtained. The cost of fitting a boat is about \$12 per head of cattle capacity. A boat big enough to take 500 head would cost \$6,000. A boat to carry 400 head would cost \$4,500.

## Completes Twelve-Year Task

Priest-Artist's Paintings Adorn Walls Of Gravelough Hospital

Mrs. Grace Maillard, priest-artist, has completed twelve years' labor in painting religious pictures adorning the walls of Gravelough hospital.

His "Way of the Cross," just finished, consists of fourteen life-size paintings, each representing a scene in the life of Christ. They are rich in colors, beautiful and of aesthetic value. In addition to beautiful conceptions of color, symmetry, order, regularity and balancing of ideas are found in his work. They come from the mind of an artist, who has painted the religious, dramatic and moral doctrine of the Christian faith.

## The Explanation

Wife—"Henry, here you are grousing about a few little bills for my stockings, and whatnot. Do you know I could have married Mr. Head, the telephone magnate, and he's a millionaire. But I didn't."

Henry—"Yes, that explains why they have made a new form of cloth for dentists. It reminds something like this: 'Do you want to pull the tooth, the whole tooth and nothing but the tooth.'"

Meteor Crater, Arizona, is 4,000 feet in diameter and 600 feet deep.

## Impressed By Visit

British Vice-Admiral Gives Account Of Trip To Canada

Vice-Admiral Francis Wade Cuddehove gives a breezy account of a six-week's visit to Canada in his report as president of the association of retired naval officers.

"A small property near Vancouver was recently turned over to me. After being connected with this property or settlement (called 'Caulfield') after my father, who bought it as virgin forest and started to develop it at the end of the last century, necessitated a trip through Canada to the Pacific coast, and so, incidentally, gave me the opportunity of meeting A.R.N.O. members of whom, in September, there were 24 scattered between Nova Scotia and Alaska. It was a strenuous, but splendid six weeks. The welcome given me everywhere was something not to be forgotten, and I should like to take this opportunity of once again thanking my various hosts and hostesses for their charming hospitality and the truly delightful and extraordinarily interesting time they gave me."

"One member (working on a farm for his approaching university degree) was pitching corn, another was raising a ferry, another was perched on top of a spire of Eifel Tower as they 'look-out' in the forest area of a farm. A fourth member owned and worked 20 acres of fruit farm. Apples 'by the branches were breaking with their load, and hardly a tree but carried 2,000 apples. I saw fruit trees in all parts of the country, from the mountains, and friend and councillor of the whole of his little community, and his work went on. I was very much in his district without the knowledge and approval of 'The Commander.'"

"Everyone who was dependent on pension or English income was being badly hit, the pound sterling having dropped from \$4.10 to \$3.10. I was amazed, however, to find how comfortable and happy a family can be in a house almost devoid of luxuries with labor saving appliances, cheap electricity, and a cheerful and efficient housewife."

## Support Land Scheme

Regina To Participate In Provincial Back to the Land Plan

Decision to participate in the provincial government's back to the land scheme was reached by Regina city council recently although some criticism was directed to two points in the measure. Protested points were that the cost per family will be higher this year than last, and the change of policy of the government this year compared with that in effect last year.

Under this year's scheme the municipality participating in the plan is required to agree to undertake to contribute one-third of the expenditure per family up to \$400 and, further, to assume one-third of an excess expenditure over \$400 but limited to an additional \$200.

Last year the cost to the city per family was \$100 and some aldermen felt that who would not under last year's plan would have ground for objection to an advantage given to those going under this year's plan.

## Patrol Hudson Straits

Government Ice Breaker To Be Used On Route In Summer Season

The government ice-breaker N. B. McLean will again act as patrol boat and escort to freighters using the Hudson Straits route during the summer season, according to announcement from the Department of Marine. The powerful ice-crusher will go into dry dock here for overhauling following which she will take on supplies and provisions for her voyage north, which will probably start about the end of June.

Judge: "Who was driving when you hit that car?"

Drunk (triumphantly): "None of us. We was all on 't' back seat."

Radio telephone service between trains and ferries has been inaugurated by a railway in Germany.

## SOURD ON THE WORLD—THAT'S LIVER

Wake up your Liver Bile

No Calomel necessary

Many people who take Calomel for a general purgative make the mistake of taking too much. Calomel is a powerful purgative and should be used with caution. It is not a food and should not be taken on an empty stomach. It is not a medicine and should not be taken for a long time. It is not a cure and should not be taken for a cure. It is not a remedy and should not be taken for a remedy. It is not a treatment and should not be taken for a treatment. It is not a therapy and should not be taken for a therapy. # BRITAIN FAVORS U. S. PROPOSAL FOR TARIFF TRUCE

London, England.—Prime Minister Ramsay MacDonald announced in the House of Commons that Britain favors the U. S. proposal for a tariff truce during the period of the world economic conference with safeguards for Britain's special tariff position.

Mr. MacDonald agreed to hold a full debate of the Washington conventions and of the British policy at the world economic conference.

The prime minister informed the House Mr. Roosevelt, Mr. Herriot and he himself had agreed in regard to plans for the world party.

He appeared fresh and filled with confidence as he reviewed the Washington talks.

The prime minister quickly roused the members to most animated discussion. They craned their necks and sat on the edges of their seats as, at the outset of his report on his discussions in Washington with President Roosevelt, he jumped into the question of the tariff truce.

With tariff issues paramount in the house, Mr. MacDonald made it clear that while President Roosevelt, Edward Herriot, of France, and he himself had agreed on plans for the world economic conference, the Washington talks brought no definite agreements in regard to policy. Nor had there been any solution of the world economic problems, he said, although the exchange of views was "most encouraging."

The prime minister announced that the war debts had been "frankly examined in all their aspects," but he said that no fuller statement was possible at the present time as the problem "necessarily has not yet reached the stage of agreement."

Mr. MacDonald declared that the suggestion of "safeguards" of Britain's special tariff position, made in connection with the tariff truce suggestion, had been considered "reasonable" by U. S. officials.

The British position in regard to tariffs, he told the House, is different from that of nations whose exports reach high tariff countries, with policies a economic defence already fully worked out and in operation.

The prime minister announced that the war debts had been "frankly examined in all their aspects," but he said that no fuller statement was possible at the present time as the problem "necessarily has not yet reached the stage of agreement."

## Pioneer Woman Legislator

Mrs. Mary Ellen Smith Dies At Vancouver

Vancouver, B.C.—Mrs. Mary Ellen Smith, pioneer woman legislator of British Columbia, and first woman to hold cabinet rank in any British Empire parliament, died in hospital here May 2nd.

On April 22 Mrs. Smith suffered an attack of cerebral hemorrhage and had been unconscious since.

Mrs. Smith first represented Vancouver in the British Columbia legislature in 1918, succeeding her late husband, Hon. Ralph Smith, minister of finance in the provincial cabinet, and a former member of the House of Commons. In 1921 she was appointed minister without portfolio by the then premier, Hon. John Oliver, but retired from that position later the same year. She continued to sit in the legislature until 1928.

Mrs. Smith took great interest in all legislation pertaining to the welfare of women and was responsible for many acts for the betterment of their condition.

## Sugar Tax Passes House

After Liberals Made Demand For General Retrenchment Scheme

Ottawa, Ont.—The two-cent sugar tax passed the House of Commons after demand from Liberals for a general retrenchment scheme to reduce the costs of government. Official Ottawa, said Hon. James Macdonald, former minister of trade and commerce, should take a lesson from private business and cut its overhead. He instanced the 34 research laboratories operated in various government departments and, at the same time a national research council equipped to handle the same work.

## Ottawa May Erect Building

Ottawa, Ont.—A large office building in Ottawa is planned by the government to relieve unemployment. It would be west of the Confederation building on Wellington Street. It is proposed that the new structure, which would cost \$2,000,000, would be paid for by "transient notes," to be paid off in annual payments, instead of the more costly plan of issuing debentures.

W. N. U. 1929

## Surtax On U.S. Goods

French Minister Of Finance Is Ready To Take Action

Paris, France.—The ministry of finance has prepared to impose instantly a 15 per cent. surtax on U. S. goods. The decree, it was learned, is ready for signature, to be issued when the U. S. dollar approaches 20 francs which officials expect.

This surtax already is effective on British and Japanese goods because of depreciated exchange.

It cannot be increased without parliamentary authority, which Premier Daladier was reported contemplating.

American residents in France and tourists, who already have lost a large part of their incomes, have been badly hit by the 15 per cent. fall in the dollar. Many of them, unable to hold out longer, are beginning to flock back homeward.

Movements of both the dollar and the pound sterling have been complicated by the fall of the franc, but it was hoped France will be helped by measures the government is considering to defend French commerce and to slash the value of the budget by the senate. This, the ministerial press indicates, the cabinet supports.

Weakness of the franc was attributed to concern over the repercussions of commerce of the unbalanced French budget and the necessity for borrowing abroad.

A general race to wind up pending commercial pacts before the closing date of the world economic conference in London, England, June 12, was discussed in some quarters.

## Ramsay MacDonald Says Visit Was Successful

British Premier Pleased Over Talks With President Roosevelt

Southampton, Eng.—A cheering crowd on the dock greeted Prime Minister Ramsay MacDonald on his return from his economic discussions with President Roosevelt in Washington.

Mr. MacDonald declared on landing that he was very pleased with all of his conversations with Mr. Roosevelt, which he described as most successful.

The prime minister said it was well worth while going ahead and tackling the problems which were bound to exist to co-operative good will. It was that good will which he found in a striking way in Washington, he declared.

He denied inviting Mr. Roosevelt to come to London for the world economic conference which is to open June 12, saying that the matter never was mentioned between them.

"I am very pleased with the whole of the transactions," the prime minister told interviewers. "I met a man who is sincerely interested in getting things done in the world, and we found ourselves in most complete agreement. We had talks on how to do it of the most friendly kind."

## Great Air Armada

Italian Aviators To Cross Atlantic In June

St. Johns, Nfld.—Italian aviation experts, busy preparing for the great air armada that will cross the north Atlantic in June, announced recently that two submarines and two destroyers would arrive here the middle of May.

These vessels will act as convoys for the 24 airplanes of the "11th year crusade" along the northern route.

The airplanes, scheduled to leave Orbetello late in May or early in June, will fly to Chicago for the Century of Progress Exposition, touching at St. Johns, New Brunswick, Ireland; Reykjavik, Iceland; Cartwright, Labrador, and Shedd, New Brunswick.

Three advance planes arrived here last week on the liner "Rosalind," and as soon as weather permits they will fly to Cartwright to establish a supply base for the flotilla.

## Milk Probe Fanned

Ottawa, Ont.—The parliamentary milk probe is virtually ended. Only in the eventuality of a desire for enlightenment on the milk situation to be explained by some particular witness will any further evidence be taken. After its 25th sitting the committee gave out its official intimation. An immediate report to parliament is probable.

## Calgary Unemployed

Calgary, Alberta.—Unemployed to the number of 370 reported at relief jobs despite the unemployed married men's strike, sponsored by workless organizations in protest against lower summer relief allowances.

## Manitoba Taxation

New Emergency Legislation Is Sweeping In Its Application

Winnipeg, Man.—Balancing of the family budget appeared to be the principal concern of residents of Manitoba recently, following passage of the government's emergency legislation providing for a two per cent. tax on all wages and incomes.

The term wages, under the act, has a broad application and covers salaries and emoluments from any source whatsoever, compensation for labor or services measured by time, piece or otherwise.

The tax is effective, as provided, from May 1.

Incidental privileges, such as free board or lodging must be added by the employers at prevailing rates and added to earnings taxable. Not even the travelling salesman, whose expense account allows for subsistence away from home, is forgotten.

Householders scanned the family budget in search of items that comforters might be eliminated in order to bring about an equalization. The telephone, gasoline for the family automobile and other sundries were subjects for discussion.

Sweeping in its application, the tax includes salaries, incomes or other emoluments of members of the senate and House of Commons. Dominion members thereof, members of municipal councils, commissioners of boards of management and court judges are affected.

Members of parliament and legislators, travelling on passes or other facilities of the government, are exempted from the provisions of the act. They will pay two per cent. on what they would have paid for railway transportation.

## Obligations Will Be Covered By Debentures

Shareholders At Annual Meeting Of C.P.R. Approve Issue

Montreal, Que.—To permit the liquidation of short term loans amounting to \$30,000,000 and other maturing obligations, shareholders approved the issue of additional consolidated debenture stock at the annual meeting of the Canadian Pacific Railway Company here.

In his address to the meeting Edward W. Beatty, chairman and president, said despite unfavorable conditions the operations of the company showed it had come through in excellent financial condition and with financial structure on a conservative basis.

Working assets at the end of the year were \$25,811,144, while current liabilities were \$14,511,267, a ratio of 3.7 times.

Mr. Beatty, Senator Frederick L. Bogue, W. A. Black and Lord Shaughnessy were re-elected to the board of directors, their present term of office having expired. The address of Mr. Beatty was adopted without discussion.

## Railway Making Profit

B.C. Road Announces Revenue Exceeds Expenditures

Vancouver, B.C.—The Pacific Great Eastern Railway is one of the bright spots in British Columbia industry according to reports just submitted by Robert Wilson, executive assistant to the board of directors. Revenue will exceed expenditures for the first six months of the current year, it is prophesied.

Mr. Wilson declared this will be the first time revenue has topped expenditure in the first six months of any year the road has been operated.

Statement for March shows a profit on operation of \$73,645 in March of last year.

## March Exports To U.S. Down

Ottawa, Ont.—Agricultural products exported to United States in March totaled \$416,780, as against \$453,823 for the corresponding month last year, according to a report issued by the Dominion Bureau of Statistics.

For the nine months ending March, farm products exported to United States were valued at \$2,517,706, as compared with \$7,731,674 for the corresponding period in 1931-32.

## Press Photographers Bid MacDonald Bon Voyage

Here is an interesting photograph of Prime Minister Ramsay MacDonald, with his daughter Isabel, on board the liner "Therapagat" just before he said goodbye to America. The press photographers gave him one of their typical "bon voyages," and a few of the camera men can be seen in the foreground.

## CREATED BRITISH AIR FORCE

Great Britain has lost one of the greatest minds behind the creation of the British Air Force with the passing of Sir William Geoffrey Salmond, commander-in-chief of the Air Defence of Great Britain. He was to have become Chief Air Marshal this month, in succession to his brother, who was to retire.

## Muskies Menace Free States' Hydro Scheme

Government Seeks Canada's Advice On Means Of Extermination

Dublin, Irish Free State.—Canadian muskies are believed to be threatening the Free State's great hydro-electric scheme on the river Shannon. In an unguarded moment last year the Department of Agriculture gave permission for the importation of two of the rats from the Dominion.

After a short period in captivity the animals escaped from their owner and last week it was discovered the Free State was afflicted with a pest from which it had hitherto been immune.

Half a dozen of the rats were shot by a Tipperary farmer who snatched them from a Shannon embankment and mistook them for agriculture.

The Department of Agriculture has ordered an investigation and experts from the Department of Industry and Commerce fear stringent measures will have to be adopted to prevent pests from damaging the hydro-electric scheme embankments.

The government has promised to inflict a fine in the fall which will make the rats illegal inhabitants of the Free State, believing the present system of licensed importation is inadequate. In the meantime the department of agriculture is to seek advice from the Canadian Department of Agriculture as to the best means of exterminating the animals.

## To Prosecute Gold Hoarders

Time Limit For Surrender To U.S. Treasury Has Expired

Washington, United States Government has said it intends to prosecute gold hoarders, but it has agreed to let its course of action indicate that many hoarders are waiting for treasury officials to show their hands.

The time limit for returning gold has expired, and it is understood the treasury is checking a list of hoarders supplied by banks. Last week there was approximately \$100,000,000 in gold and gold certificates still in the bank of it believed to be in hiding in this country.

## BAN OATH OF ALLEGIANCE TO BRITISH CROWN

Dublin, Irish Free State.—Hope that he soon would have the pleasure of proclaiming Ireland a free republic was expressed by President Eamon de Valera at a banquet held during the closing debate which followed the enactment of a bill removing the oath of allegiance to the British crown.

The president added that he was resolved to wipe from the existing constitution "everything inconsistent with the sovereign rights of the Irish people."

This utterance was the most defiant of the kind de Valera ever had made.

"We are going to remove from the constitution every badge of inferiority," the president declared. "The people will be consulted before the republic is declared."

Holding aloft a copy of a draft constitution submitted by an Irish delegation to Great Britain in 1922 which was amended by the British, de Valera said the draft would take from it every clause Great Britain "forced" them to accept.

The abolition bill was re-passed by the Dail Eireann by a vote of 76 to 10. Previously twice rejected, it comes law through invocation of article 38a of the constitution, setting time limit on the upper chamber's veto.

The action was taken on the motion of President de Valera himself, made in Gaelic, the Irish national language.

Conviction that the British government would not consider the Irish treaty setting up the Free State broken, the moment the first person took his seat in the dail without swearing to the oath, was expressed by Gratian Edmondson, supporter of former President William T. Cosgrave.

President de Valera replied he did not believe the bill's passage was a violation of the treaty and added it was his intention to continue pressing for removal from the constitution of any "symbols" regarded as inconsistent with the position of the Free State. One of these "symbols," he said, he said, was being removed and others would disappear through legislation in the near future.

## NEW PENSIONS BODY EXPECTED TO BE ORGANIZED

Col. Arthur's suggestion that the pensioning of the war veterans be held over to enable the departmental officers to draft new amendments.

The contemplated amendments had not been submitted to the veterans, and he had not had time to do so.

Invited by the committee to express his views, J. R. Bowler, general secretary of the Canadian Legion, declared that the meeting of the veterans new proposal to his colleagues of the Associated Veterans before venturing an opinion. However, at the suggestion it would seem that the suggestion met what the veterans had been asking for, particularly if it meant the meeting of the two bodies into one court of first instance.

## Thirty Professors Lose Positions In Germany

Dismissed From Berlin and Cologne Universities Under Hitler Regime

Berlin, Germany.—Opportunity of another semester at German schools and universities under the auspices of the Hitler regime has been marked by the dismissal of 30 professors from Berlin and Cologne universities.

Meanwhile the students' federation of the former imperial universities has integrated a revolt against Jewry, remaining on the staff, contending that the German student retains having the right to his knowledge and thinking set by Jews.

It is the duty of every German student, the federation declared, "neither to enroll in courses nor to hear lectures given by Jews."

Dismissal of the 30 professors, 21 from Berlin University, and nine from the Cologne school, was announced by Bernhard Rust, Prussian education minister.

## Prorogation Of House

Early Closing Of Ottawa Parliament Is Anticipated

Ottawa, Ont.—Parliamentary session of the House of Commons was seen in the course of an interchange on the subject between Prime Minister R. B. Bennett and H. H. Mackenzie King, leader of the official opposition.

The question arose when Hon. E. T. Rhodes, Minister of Finance, asked for a second interim supply of 1-12 of the total, in order to carry on day to day requirements of government, and meet the May 15 salary list.

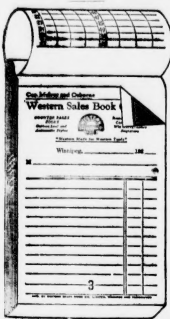

Mr. Mackenzie King suggested that, as the opposition had no desire to further prolong the session, it might be possible to prorogue before the House adjourns, so that the interim supply would not be necessary.

## Conscription Not For Canada

Geneva, Switzerland.—When the disarmament conference again split on the proposal to abolish Germany's standing army and substitute a conscription of 100,000 men, Dr. W. A. Riddell, told the conference that the Canadian people "would not stand for conscription."

#### MONEY REACTIONARIES CONFOUNDED

Premier R. B. Bennett, Hon. W. L.  
Macdonnell, King, Herbert, Holt, Sir  
William White, Jackson, Peadar and  
Jesse Gougeon—  
What do they think of monetary in-  
flation now?

These men all have been ridiculing  
any idea of inflation, pool-poisoning its  
alleged beneficial effects, calling the ad-  
vocates "wild-eyed fanatics" and urging  
the retention of "sound money."

Now this new common people,  
thanking Roosevelt II of the United  
States, steps out and infuses the mo-  
netary system of the United States  
with notes of communitism, instantly  
ruin and hope is re-born among the  
masses.

The United States wasn't driven off  
the gold standard. She walked off.

With more than one third of all the  
world's gold in her coffers the United  
States turned her back on the yellow  
metal.

The Canadian champions of "sound  
money" have been discomfited and their  
arguments abandoned. They haven't a  
"thrup" to make now!

Cut wages and reduce expenditures,  
has been their plea. Roosevelt, the  
Statesman, would have none of it.  
It made money bear its share, he said.  
Make it plentiful and take "precious-  
ness" from it. Put more value in com-  
modities and less in money.

"Look at Germany. Look at Russia,"  
our financial wiseacres have been tell-  
ing us whenever inflation of money  
was mentioned. Now we say "Look at  
the United States."—Hanna Herald.

Mary had a little lamb, its fleece  
was white as snow; it strayed away  
one day, where lambs should never go.  
And Mary sat her quickly down and  
wept, wept from her eyes; she  
never found the lamb because she did  
not advertise. And Mary had a brother  
John who kept a village store; he sat  
him down and smoked a pipe, and  
watched the open door. And as the  
people passed along and did not stop  
to buy John still sat and smoked his  
pipe and blinked his sleepy eyes. And  
so the sheriff closed him out, but still  
he lingered near and Mary came to  
drop with him a sympathetic tear.  
How it is, sister, can you tell, who  
other merchants here, sell all their  
goods so readily and thrive from year  
to year. Remembering her own bad  
luck the little lamb replied: "These  
other fellows need John, because  
they advertise."

They say that a little bit of vinegar  
brings its own mother, but it's a wise  
cock that knows its own pop.

## GARRETT MOTORS

PHONE: 31 CARBON

Another sale of salmon angling  
licenses is announced in New Brun-  
swick for the famous waters of the  
Upsalquitch River which will be  
led to the highest bidder at a  
sale to be held in Fredericton,  
April 27. The licenses will be for  
ten years from March 1, 1933.

Canadian railway salaries have  
experienced severe cuts over the  
past few years. This has ap-  
plied to officers as well as to  
workers on the trains and along  
the lines. The recently issued  
annual report of the C. P. R. an-  
nounced that E. W. Beatty, chair-  
man and President of the C. P. R.,  
had instituted a special cut of 15  
per cent for himself and the Com-  
pany's directors. This makes a  
total cut of 25% for them since  
the decline in earnings began.

Nipigon River's famous speck-  
led trout don't know it yet but  
the season has gone forth that  
non-residents shall pay only \$5.00  
for an annual fishing license, or  
about half the charges hitherto.  
Further, Nipigon guides will offer  
their services this year for the first  
time at a special rate of \$10.00  
a week as against \$25.00 in 1932.  
These rates are for the voyage and  
in those off the island at its  
mouth including St. Ignace, run  
to seven pounds and up.

Canadian Pacific liner Empress  
of Japan recently hung up a new  
speed record when she sailed the  
2,325 miles from Honolulu to  
Vancouver in four days, eight hours  
and three minutes, stopping seven  
hours, 47 minutes from her best  
previous time for the voyage and  
most outstanding the best mark  
for any other Pacific liner except  
the Empress of Canada.

The literary hit of the year has  
been made by Frederick Niven,  
Canadian author, living near Nel-  
son, B.C., whose "Mrs. Barry" has  
been recently hailed by authori-  
ties as one of the most profound-  
ly moving books ever written.  
Mr. Niven, who thus breaks into  
the ranks of best sellers, earlier  
in the century handled baggage  
and freight for the Canadian Pa-  
cific Railway at Nelson.

H. F. Mathews, general man-  
ager, Canadian Pacific hotels in  
western Canada, with headquar-  
ters at Winnipeg, has been pro-  
moted general manager of the  
company's hotel system from  
coast to coast, with headquarters  
in Montreal, according to a re-  
cent announcement by E. W.  
Beatty, chairman and president of  
the railway.

It is necessary to go back to  
the year 1916 to find revenue for  
the Canadian railways on a level  
comparable with 1932. The fol-  
lowing figures show that in 1932  
as compared with 1916:

Railway Operating Revenues	Decreased 6.5%
Railway Operating Expenses	Increased 20.9%
Net Revenue from Railway Operations	Decreased 50.6%
Railway Tax Accruals	Decreased 135.7%
Net Railway Operating Income	Decreased 58.3%
Railway Property Investment	Increased 34.6%
Rate of Return on Investment	Decreased 69.6%
Revenue Freight Ton Miles	Decreased 28.3%
Revenue Passenger Miles	Decreased 50.3%
Actual Gross Ton Miles	Decreased 17.2%
Payroll of Engine and Train Service Employees and Telegraphers	Increased 31.3%
Train Miles	Decreased 22.8%

## MORE THAN ANY OTHER TIRE FOR THE SAME PRICE

Tire prices are low these days. It's a good time to buy the tires  
you need. And the best tire to buy is

## The ROADCRAFT

—the lower-priced tire made by Gutta Percha & Rubber, Limited—

The ROADCRAFT  
is a sturdy tire that

1. Is lower-priced.
2. Has a stronger, safer construction than ordinary tires.
3. Is sold with the new 12 months guarantee.
4. Gives you more than any other tire offered for the same price.

Study the illustrations that show  
you the stronger, safer, value-giving  
construction of the ROADCRAFT  
TIRE—the result of 50 years of  
experience in making quality  
rubber products.  
Ask a Gutta Percha dealer to tell  
you about the ROADCRAFT TIRE  
—the best value in lower-priced  
tires your money can buy.

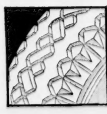

GUTTA PERCHA &  
RUBBER, LIMITED  
Head Office: Toronto  
Branches from Coast to Coast

#### GUM CUSHIONS

An Extra Value

ROADCRAFT Tires have  
Cushions of pure gum rub-  
ber moulded between the  
plies of cord fabric, making  
a "bearing" that reduces  
friction and wear at these  
points as effectively as ball  
bearings do in machinery.

ROADCRAFT Tires  
have extra width of  
tread which gives extra  
traction and extra pro-  
tection from skidding.

# Federal Government Economies In Reduction Of Expenditures Results In Saving Of \$81,000,000

Reductions in controllable expenditures over the last three years, coupled with the \$14,000,000 provided in the last budget, have resulted in total government economies of \$81,000,000. Hon. E. N. Rhodes, minister of finance, stated in a circular letter forwarded to all Canadian Chambers of Commerce and Boards of Trade which recently called upon the federal administration to "set a good example," in matters of economy.

"The government is in cordial sympathy with the objects you have in mind," Mr. Rhodes wrote. He expressed the opinion that all factors of the problem, in respect to government expenditures, had not been considered.

Even if every salary, pension and parliamentary indemnity were cancelled, there would still be a deficit of \$26,000,000 in the non-controllable obligations, he wrote.

"Furthermore," the letter proceeded, "my point out for two years past, through action of the treasury board, promotions and increases of pay have been held in abeyance, and as vacancies have occurred in the government service the positions have been abolished. These and other restrictions have resulted in a saving of \$4,500,000 per annum, and a reduction of over 4,000 employees. This is in addition to a saving of \$8,300,000 per annum effected by the 10 per cent. reduction from salaries and wages.

In calling for economies, it is erroneously assumed that reductions in controllable expenditures could be made to such an extent as to balance the budget without resort to additional taxation. I submit a few figures in round sums which will indicate the impossibility of such a saving.

"Based upon the taxation measures in force prior to the last budget, estimated revenue for the fiscal year 1933-34 is \$287,000,000, our estimated expenditure for the coming year is \$445,000,000, in which are included the following items of uncontrollable expenditure:

Interest charges, \$133,000,000.  
Canadian National Railways deficit, \$50,000,000.  
Pensions and soldiers' care, \$58,000,000.

Subsidies to provinces, \$15,000,000.  
Old age pensions, \$12,000,000.  
Unemployment relief, \$35,000,000.

These items are fixed and uncontrollable beyond question, with the possible exception of that for unemployment relief, but, having regard to existing conditions in this country, the inescapable demands which are made upon the Dominion treasury in this connection, this item can, I think, fairly be included. The total of the above items is \$313,000,000.

"It will thus be observed that I am here in a position to eliminate every dollar of so-called controllable expenditure we would still have a deficit of \$26,000,000. That is to say if we were in a position to eliminate approximately 56,000 permanent civil servants (not including casual employees); stop their superannuation payments in breach of contract; pay no indemnities to members of parliament or to senators; pay no judges' salaries; dismiss postmaster's staffs; the mounted police force, all customs officers, lighthouse keepers, harbor masters, etc.; in other words, if the government were to dismiss every civil servant and close all government activities, there would still be a deficit of \$26,000,000.

## Depth Of The Sea

New Deep Sea Sounding Is Made In Pacific Ocean

A new deep in the bed of the Pacific Ocean was reported in a message from the U.S.S. Hanga, a U.S. C. B. T. ship, commanding the naval oil tanker, reported that by repeated use of the sonic depth finder, the deep had been measured at 5,501 fathoms, or 33,006 feet, it was found. The message said, at latitude 30.45 north, longitude 142.20 east, which was the place it directly across the Pacific Ocean from San Diego near the coast of Japan.

The new sounding approached the greatest known depth, that of 34,210 feet found in the Mindanao trench northeast of the island by that name in the Philippine group.

Presley—"What is an iceberg, Dad?"  
Dad—"Why, it's a kind of a permanent wave, son."

W. N. U. 1933

## Decrease In Fish Sales

Catch In North Greater, But Price Lower Receipts

The value of fresh fish shipped out of The Pas district during the past season was \$33,561, according to the report of E. H. Stevenson, fishing inspector. Last year the amount received by fishermen was \$38,098. The decrease is attributed to the fact that men and fish of the population districts are so low in price that northern fish, subject to longer freight hauls, and therefore increased overhead, cannot compete with other markets.

The catch per man this year was greater than last year, but the receipts were less owing to low prices. The total number of pounds shipped this year was \$83,700, against \$90,400 last year. There were 238 licenses issued for the season of 1931-32, as against 93 in 1932-33.

## Expects To Reach Hundred

Seventy-Eight Year Old Texas Man Thrives On Beans

Thomas Jaime, 78, one-time pony express rider and resident of El Paso, Texas, lives on a diet of frijole beans, and expects to live to be 100 years old.

"And if I reach that age," he declared, "I'm going to celebrate by riding in an airplane. I'd like to see how those pilots carry the mail." Years ago Jaime rode the express trail from Fort Davis, Texas, to Roswell, New Mexico.

## Winnipeg Newspaper Union

By Ruth Rogers

It's all puffed up and silk crepe, and isn't the buttoned wrapped bodice smart?

It's lovely 'neath the spring coat in a vivid red or blue and white print in crinkly crepe silk. And you can wear it right through the summer season. It's easily made and will cost a little.

Style No. 991 is designed in sizes 14, 16, 18, 20, 22, 24, 26, 28, and 30 inches bust. Size 16 requires 3½ yards of 38-inch material. Plain crepe silk in grey, dark blue or the new orange shade is delightfully attractive in this model. It's easily made and will cost a little.

SPRING IS IN THE AIR!  
It's so fresh and lovely in silk crepe print.

SPRING IS IN THE AIR!  
It's so fresh and lovely in silk crepe print. All conspired up to give money, and thousands of children have been deprived, to the extent of the abridgement of educational opportunities that should be there.

In 35 states, the teaching staffs have been reduced to the point where classes are overcrowded and not be taught properly.

In sum, concludes the Post-Intelligencer, the whole public school system of the nation faces an imminent breakdown, the disastrous social and moral effects of which will be felt for a generation. The newspaper concludes by denouncing the "false economy that breeds ignorance, poverty and crime."

There can be no educational facilities in not of course, false economy. There can and should be true economy, an elimination of extravagance and waste, a pruning away of harmful and unfruitful expenses. And in economics, as in extravagance, there is a real danger, in Vancouver as in the cities and towns across the international boundary, that, in trimming away educational facilities, the admitted rights of the rising generation shall be invaded. We are piling up trouble enough for ourselves and our heritage of debt, which we didn't inherit but created. We must leave them. If we are to be fair, all the facilities possible for solving the problems we are throwing at them. And we are not leaving them all the facilities possible. If we give them fewer educational advantages than we can by hook or by crook, provide. —Vancouver Province.

Salvage Job Too Costly  
Raising Sunken German Fleet Proved Too Great A Problem

The story of the raising of a portion of the German fleet sunk by German crews at Scapa Flow was told to Manchester members of the Institution of Mechanical Engineers by E. P. Cox, head of the salvage firm which undertook the operation. It cost the firm about £500,000, said Mr. Cox, and they lost money by it. Vessels were sometimes undamaged, and in one instance the divers reported three destroyers in a heap, two lying crosswise over a third. A battleship like the Hindenburg could not be lifted by gear, so they closed up the holes in the vessel and pumped out the water until she floated. One problem was that they could not find the valves which the Germans had opened to sink her. The valves, once located, it was no easy job just to patch. The divers had to search the sides of the vessel thoroughly for holes and had to put on 800 patches. One of the patches cost £2,000. It was not until three days later were they able to bring the Hindenburg to the surface in a stable position without a dangerous list.

## Education and Economy

Carrying Saving To The Point Where Essential Education Is Denied

The Seattle Post-Intelligencer reports that in 15 out of the 48 states in the American union, public schools have been closed and no other provision has been made to continue child education.

In 40 states, school terms have been abridged to save money, and thousands of children have been deprived, to the extent of the abridgement of educational opportunities that should be there.

In 35 states, the teaching staffs have been reduced to the point where classes are overcrowded and not be taught properly.

In sum, concludes the Post-Intelligencer, the whole public school system of the nation faces an imminent breakdown, the disastrous social and moral effects of which will be felt for a generation. The newspaper concludes by denouncing the "false economy that breeds ignorance, poverty and crime."

There can be no educational facilities in not of course, false economy. If we are to be fair, all the facilities possible for solving the problems we are throwing at them. And we are not leaving them all the facilities possible. If we give them fewer educational advantages than we can by hook or by crook, provide. —Vancouver Province.

## Uses Of Wood In Canada

A Considerable Proportion Is Still Utilized For Fuel Purposes

According to figures compiled by the Forest Service, Department of the Interior, the use of wood for fuel purposes still continues to be one of the main uses of wood in the Dominion; 36.7 per cent. of the wood cut is consumed in this way. Third in importance among the uses of wood, comes pulpwood, 21.2 per cent. of the consumption of wood goes for this purpose. The quantity of wood utilized for railway ties makes a respectable total, even less make up 3.5 per cent. of the total consumption of wood, and sawn ties 2.25 per cent. of the total, for all ties. Poles still require a considerable amount of wood, about one and one-half per cent. of the aggregate, and poles, pilings, and similar products form one-half of one per cent.

## Reclaiming Zuyder Zee

Work In Holland Will Take Twenty-Five Years

The work of reclaiming Holland's Zuyder Zee will probably require 25 years, J. V. J. de Boer, van Kuffeler, director of the project, said recently while in London. The new land will ultimately be used for agricultural purposes he said. It will at first be provided for pastoral purposes and later, approximately one-third of the area is under cultivation. Work will be provided for 3,000 persons when the project is completed, Kuffeler said.

The Zuyder Zee is being enclosed by a dam about 20 miles long. Within the enclosure will be embanked "four parts called polders, from which the sea will be pumped. The main dam already has been completed, and the first polder probably will be finished next year.

## Flour Milling In Canada

The most important manufacturing industry connected with food crops in Canada is flour milling, which dates back to the settlement, which dates back to the settlement at Port Royal (now Annapolis, N.S.) in 1605.

## Just Human Nature

Jig-Saw Puzzles Give People Chance To Fumble

Jig-saw puzzle addicts are "fumbler" in the opinion of Dr. Theodorus L. Bolton, head of the department of psychology at Temple University, Philadelphia.

But they may be considered, for most of the great men and women in history have been "fumlbers." The solution to some of the greatest world problems were found by "fumbling." Dr. Bolton said.

"The jig-saw puzzle," he said, "is just a device that calls out in great vigor the process of fumbling in random fashion. The jig-saw puzzles are persons with more than ordinary, even if temporary, disposition to fumble around and fumble chances until some chance reveals a step."

"The craze for the puzzle is a response to this disposition in human nature. The matter of fumbling is a most useful and diverting attraction. One-half of the world is held in bondage to the fascination of looking for chances. The jig-saw puzzle exercises both hand fumbling and idea fumbling, with emphasis on the fumbling of hands."

WORLD HAPPENINGS  
BRIEFLY TOLD

In a fine state of preservation a 70-year-old note of the private banking house of Macleod and Co. of Prince Albert, North West Territories, has been found there.

People live to a ripe old age in Victoria. Out of 240 people buried in Ross Bay Cemetery last year there were 50 more than 80 years of age. Nearly 50 per cent had reached 70.

Germany has proposed a world disarmament conference that the British arms plan be amended to provide a maximum calibre of 160 millimetres for mobile guns and to abolish all tanks.

F. J. Burt of the Vancouver Daily Province and a director of the Canadian Press, was re-elected director of the American Newspaper Publishers' Association at the close of the 47th annual convention in New York.

Doorknocker children to the number of 154, who have been held almost a year in various public institutions at the coast, have been returned to their relatives in the Doorknocker settlements at Nelson.

Pointing out the railway line has been in use since 1904, the Canadian Pacific is urging the Manitoba Government to complete a hotel this summer for the accommodation of the travelling public.

The last train that will ever run over the abandoned Canadian Pacific line at Mono Road, Ontario, killed A. Stewart, Toronto, and injured Fred Randall, whose car was struck by a work train proceeding to tear up the line.

One million trees—mostly spruce and pines—will be planted in Valcartier district by the unemployed men to be stationed there by the Dominion Government this summer. They will be furnished by the Quebec Government.

Reduction in the board and residence fees of Royal Victoria College, women's section of McGill University, was announced. The fees will be reduced from \$500 to \$450 and the new scale will go into effect at the opening of the next term.

The number of persons in Canada who are receiving direct relief is placed at "over 1,600,000" by Miss Charlotte Whitton, executive director of the Canadian council on child and family welfare, in her report.

The monthly cost of this relief Miss Whitton places at approximately \$6,000,000.

## Win Strathcona Fellowships

Award to Three Canadians Announced by Yale University.

Award of five Strathcona fellowships for the investigation of transportation problems has been announced by Yale University, three of the fellowships being awarded to Canadians.

The recipients are Robert A. Emerson, Morden, Man.; Arthur G. Macdonald, Montreal; Palmer E. Savage, Montreal; Thomas K. Martin, Warsaw, Wis.; and Lylel B. Shellenbarger, Hopkins, Minn.

Strathcona fellowships were made possible by the bequest of Lord Strathcona, identified with the pioneer days of railroading in Canada. All five successful candidates have had previous railroad experience, two of them being third generation railroad men.

## Children Uprooted Trees

Jalous Because They Were Left Out of Arbor Day Ceremony.

Jalous children, who were not chosen to assist in an Arbor Day ceremony took their revenge at Ledybush, South Africa. The town fathers and leading citizens, assembled on the sports ground and entertained a number of school children. Lectures on trees were delivered and after the speechmaking the children were entertained with music and refreshments. The mayor and magistrates then each planted a tree, assisted by certain children. Next morning the trees were found uprooted and stripped of their foliage.

## Aircraft in Demand

There is practically no depression in Edgware, Middlesex, England. British civil aircraft have proved so popular that the De Havilland Aircraft Factory has been forced to work a full staff both night and day. The company's business has increased 60 per cent in recent months and deliveries have fallen away behind orders.

Highway freight services in France are increasing.

W. N. U. 1933

## Banks in Three Countries

U.S. Operates Under Many Laws, England and Canada Only One.

A correspondent has asked the Transcript a question which thousands of people are asking: "Why do we never hear of banks closing their doors in England or Canada, no matter how hard the times?" An historian might flavor his answer with humor: "It is because the United States, the most progressive nation on earth, is in this regard about one hundred years behind the procession." While Great Britain has merged her whole commercial banking system into five very strong institutions—Barclays, Lloyds, Provincial, Midland and Westminster—operating throughout the kingdom under but one law and plan of regulation, the United States has thousands and thousands of banks, most of them small units, operating under forty-five different sets of laws and forty-five different regulatory authorities, excellent in some states, as in Massachusetts, but varying from weak to miserable in many others.—Bacon Transcript.

## Popularity Of Air Travel

Bookings From London To Paris Are Increasing Daily.

Before the air liner "City of Liverpool" crashed in flames the number of people flying to France by Imperial Airways was about 90 a day. Now, after the crash, more than 30 people are travelling to Paris by air every day—and the bookings are still rising.

The bookings for Easter were the largest known. Every aeroplane had been duplicated, yet there were no more seats on the ordinary routes for Easter.

More aeroplanes are being added to the services to cope with the surprisingly heavy demand for seats. "This is by far the greatest demand for air liner seats that we have ever experienced," an Imperial Airways official said to a newspaper representative recently.

## Winnipeg Newspaper Union

By Ruth Rogers

One of the most famous editorials in the British Empire, that of the Boys' Own Paper, is about to undergo a change. It is only the second change in this position since the paper was founded 54 years ago. Geoffrey Richard Pockington, who has been editor for the last 11 years, is retiring.

Brought up in a family atmosphere of service to the church and to the army, Mr. Pockington has been associated with all kinds of movements on behalf of boyish life for at least 30 years. A generation ago the supremacy of the "B.O.P." amongst papers of its kind was virtually unchallenged, and its following among boys of all ages is still very strong.

How many grey-haired and bald-headed boys of today are grateful to the "B.O.P." for having given them the works of Henry, Kingston, Jules Verne, Talbot, Holmes, Reed and Ascott Hope? W. G. Grace, the unapproached in cricket, Captain Webb the first to swim the Channel, and who was drowned in an attempt to swim the Niagara rapids, wrote for the "B.O.P." and Whymper described his exploits on the "Matterhorn" in the same pages.

After a chequered career of 33 years, Archbishop Abbot's school, Guildford, England, has been closed for lack of funds.

Copied at a small outlay. It's idealizing too with its cross-of-bolton and painted skirt. Navy blue and white print now so popular this spring. Original style No. 88 is designed in sizes 16, 18, 20 years, 26, 28, 40, 42, and 44 inches bust.

Price 36 requires 2½ yards 39-inch with 1½ yard 39-inch. Price of pattern 20 cents in stamps or coin (coin is preferred). Wrap cut carefully.

## No More Mass Marriages

New Rector Of St. George's In London, England, Does Not Like Idea Mass marriages, which have for years been a feature of the Easter festival at the Church of St. George-the-Martyr, Borough High Street, are to be held no more.

For years it has been the custom for young Southwark couples to get married en masse at St. George's on Easter Sunday. Some years there have been as many as ten couples kneeling at the altar at the same time, and one marriage service has married them all. But never again will ten bridegrooms have to take such care to place the ring upon the finger of the right bride, nor, after the ceremony, will ten wives run the risk of being kissed by the wrong husband. St. George's has a new rector who does not like the idea of mass marriages. He is the Rev. E. C. Cook, who was formerly Vicar of All Saints', South Lambeth, and has been at Southwark only a few weeks.

"I am determined to have no more mass weddings at St. George's," Mr. Cook said the other day. "I don't think the young people are at all sorry. One of the chief reasons why several couples were married together was because it saved time, and I don't think the young people themselves specially desired it. When you have a number of couples being married at the same time it is impossible for them to regard the ceremony as a solemn sacrament."—Overseas Daily Mail.

## Changing Editorship

Famous Boy's Own Paper To Have New Editor.

One of the most famous editorials in the British Empire, that of the Boys' Own Paper, is about to undergo a change. It is only the second change in this position since the paper was founded 54 years ago. Geoffrey Richard Pockington, who has been editor for the last 11 years, is retiring.

## Recipes For This Week

(By Betty Barclay)

## PRUNE SOUFFLE

12 large prunes.  
3 egg whites.

3 tablespoons powdered sugar.

Boil prunes in enough water to cover for one hour. Beat prunes to a pulp after removing pits. Beat the egg whites until stiff, fold in the sugar and then the prune pulp. Turn into a greased baking dish and bake in a slow oven (250 degrees Fahrenheit) about twenty minutes. Serve at once with cream, soft custard or any desired sauce.

## JELLIED SHRIMP SALAD

Shrimps and tomatoes, there's a combination for a salad every one will enjoy. It is easy to make, too.

2 cans tomato soup.  
1 small can shrimps.  
2 tablespoons gelatin.

1/4 cup cold water.

1 tablespoon sugar.  
Salt and pepper.

Heat the tomato soup. Add the sugar, salt and pepper to taste. Cook until in cold water. Add to hot tomato mixture and stir until thoroughly dissolved. Arrange the shrimps in the bottom of a well moistened dish. Pour the tomato mixture over the shrimps. Set in a cold place to become firm. Serve on lettuce with mayonnaise and a garnish of sliced hard-cooked eggs.

## The Iceberg Patrol

Ocean Travellers Think Little Of Precautions Taken For Their Safety.

Those who go down to the sea in ships on business or pleasure, think little of the governmental precautions which protect their journeys. Yet in order that passengers on ocean liners may sleep sound of nights a ship is cruising now in the North Atlantic and experts are testing the direction, speed and volume of the Arctic water.

There is no certainty in calculating the behaviour of icebergs, but only a reasonable degree of probability to be derived from continued observation. It is for this purpose that the Coast Guard cutter "General Greene" and other vessels keep their lonely patrol in the Arctic seas and send their warnings to liners as they race back and forth between America and Europe.—New York Evening Post.

## Awarded Fellowships

Three westerners are among students who have been awarded fellowships for 1934 by the Royal Society of Canada.

They are James R. Daniel, English literature, British Columbia; George Alan Harcourt, geology, Alberta; George F. G. Stanley, history, Alberta. They are awarded for advanced research in the subjects named and are worth \$1,500 each.

Will Visit King Show

The Governor-General and Lady Bessborough will be visitors to the exhibition during the World's Fair Exhibition and conference, it was learned unofficially recently. Word from an authority, however, has been received that in charge of the exhibition stating that their excellencies, on their forthcoming tour, plan to spend a day or two in Regina at the time of the exhibition.

Says Rumor Unfounded

"Of course it is not true," said H. Kawamura, Charge d'Affaires of the Japanese legation at Ottawa, commenting on statements made in the House of Commons by Thomas Reid, Liberal, New Westminster, B.C., to the effect Japanese naval officers in guise of fishermen had obtained employment in fishing activities to familiarize themselves with Canada's Pacific coast.

Tennis rackets are the favorite diet of an insect, one-quarter of an inch long, which has just invaded England.

SUNDAY SCHOOL LESSON  
MAY 14

JESUS ASSETS HIS KINGSHIP

Golden Text: "Behold, thy King cometh unto thee. He is just, and having salvation."—Zechariah 9:9. Lesson: Mark 11:1-33. Devotional Reading: Revelation 5:9-13.

## Explanations and Comments

Jesus Publicly Claims To Be the Messiah, verses 1-10. "We have come to the solemn entry of Jesus into the Holy City in a triumphal procession for which He has deliberately chosen. We have heard Him caution some one not to report a miracle He has wrought, or charge the disciples to 'tell no man that He is the Christ.' And after the feeding of the five thousand He escaped to the hills when the people sought to make Him King. He has constantly feared that popular enthusiasm would hinder 'His mission.' Now, however, another purpose is impelling Him to seek publicity, to court the enthusiastic worship of the people, to let them know that He is the Messiah. He has now made a deliberate interruption to His work. His hour has come.

When in the neighborhood of Bethphage and Bethany Jesus sent two of His disciples to secure Him a colt that had never been ridden. Should their right to the colt be questioned by the owner, all they would need to say was that the Lord had need of him and would return him. It all seemed so simple. The colt was found in the street at the door of the owner, all they needed to do was to say that the Lord had need of him and would return him. It all seemed so simple. The colt was found in the street at the door of the owner, all they needed to do was to say that the Lord had need of him and would return him.

Quebec Town Lowers Taxes

Rigid Economy Has Provided Means Suburb With Surplus

Among the Quebec municipalities that have maintained balanced budgets through the difficult years of the current economic depression is the town of Saint-Roch, a suburb of Montreal. Mayor T. R. Durocher said that the town's budget for 1933 was not only in a position to announce a balanced budget, but also a reduction in the tax rate from twelve to eleven mills.

Revenue for the year is estimated at \$100,838 against estimated expenses of \$98,995. The estimated surplus and the tax rate reduction have been made possible, Mayor Darling said, through reducing the town's expenditures on non-essentials, and keeping maintenance costs to a minimum.

In its 21 years of existence Mount Royal has not wasted much money on election costs. Mayor Darling has been elected by acclamation for 12 consecutive one-year terms.

Will Visit King Show

The Governor-General and Lady Bessborough will be visitors to the exhibition during the World's Fair Exhibition and conference, it was learned unofficially recently. ## While There's Life...

And Ogden's Fine Cut Cigarette Tobacco is one of the things that make life worth while.

Easy to roll? Yes... but there's more than that to be said for this fragrant, mellow cigarette tobacco.

It's cool and smooth—gives a man everything he wants in a cigarette.

Get a package and learn the whole enjoyable "roll your own" story that Ogden wants to tell you.

Use "Chanticleer" papers with it.

OGDEN'S FINE CUT

Your pipe knows Ogden's Cut Plus

Holding Garden Contest

Undertaking Being Sponsored in Winnipeg By Women's Canadian Club.

Designed to develop a spirit of self-help, and giving seed to the competitors, a garden contest for the unemployed of Winnipeg will be staged this summer by the Winnipeg Women's Canadian Club. The city is divided into 12 zones for the contest and prizes will aggregate \$200. Each contestant will also receive 12 tomato plants from the committee. Zone containing one will also be established to save the garden products.

Points will be awarded each month for such results as family co-operation, planning, arrangement and maturity; development of growth, when ready for eating; freedom from weeds and apparent yield; appearance, proper thinning and use of thinning; freedom from insects and diseases, care of sprouts; straightness of rows, utilization of space, condition of crop and use of products in the home.

Cash prizes will be awarded in each district with a grand prize for the city title.

King George Fully Recovered

Taking On Obligations For First Time Since 1928

For the first time since he was taken seriously ill in 1928, King George has plunged into the affairs and obligations of kingship with all his old-time vigor and enthusiasm.

Leaves, courts, race meetings, theatre attendances, road inspections and yachting are among the things listed in the royal timetable for this spring and summer, and this very heavy program is taken as an indication that the King is now restored to his full health and vigor.

Even the watchfulness of the royal physicians has been relaxed and the King was recently seen out without hat or topcoat. His Majesty, it is said, has never cared for the constant medical supervision exercised over him since his illness, and has been only too glad to point to his renewed health as a reason for the relaxation of this attention.

In a recent compensation claim case in Manchester, England, the judge ruled that a policeman is not a worker.

## TOWN & COUNTY Personalographs

Mrs. T. J. Johnson and son Tom moved to Edmonton last Friday and will spend a few days in that city.

Mr. and Mrs. W. Woods of Calgary were Carbon visitors over the week end.

Messrs. Aaron Klissen and S. J. Garrett motored to Three Hills on Friday. The Garretts motored to a Chevrolet delivered to the northern town and this was brought to Carbon.

The miners at the Peerless Carbon collieries went on strike again last Wednesday for more pay. However, they were not successful. The married men went back to work the following day, but the mine management would not employ the single men.

Miss Doris McInnis, who has spent the past few months at her home in Winnipeg, has returned to Carbon.

Const. Moriarty has been transferred to Drumheller and left last Friday to take up his new duties on the R.C.M.P. force.

Mrs. H. N. Elliott received word last week that her sister in the States was quite ill, and she left on Friday for the southern states.

Norman Nash and Harold Edwards of Calgary, spent the week end at their respective homes in Carbon.

SUBSCRIPTIONS TO THE CARBON CHRONICLE ARE DUE AND PAYABLE NOW. PLEASE LOOK AT THE LABEL ON YOUR PAPER AND IF YOU ARE IN ARREARS WE WOULD APPRECIATE AN EARLY SETTLEMENT.

## CLASSIFIED ADS.

RICHARD BARTHELMLESS

— IN —

## "The Cabin in the Cotton"

Heart-racked by soul stirring emotion—passion and wealth beckoning—A seductive daughter of the rich madly yielding in his arms—The call of his people and childhood sweetheart ringing in his ears—Would you make the same decision as Barthelmless?

pole line. The picture show boys took five hours to make the trip from the pole line to Carbon, a distance of seven miles. On the west road to Drangier traffic has been about the same and the mail has been delayed in getting into Carbon. We need the gravel road that has been talked about. It is a necessity to our town and its future advancement and we should not let our government member rest till the road has been completed.

Henry Penner has been transferred to the Alberta Pacific Grain Company elevator at Chinook for the summer months.

Read the advertisements in this and each succeeding issue of The Chronicle, and when making purchases say "I saw your ad in The local paper."

Painting time seems to be here. The interior of the Pool and Alberta Pacific elevator offices have received a coat of paint. H. N. Elliott has had the interior of the post office re-painted, and we understand that Percy Edwards is having some paint work done at the Carbon Hotel.

She was only a merchants daughter, but she had the goods.

A sorrowing widow, having a monument erected in memory of her late husband had the following inscription carved upon it: Goodbye Henry: My Light Has Gone Out.

Three months later, when she was remarried, some wit added to the inscription: But I Have Struck Another Match.

The artist was painting a lovely thatched cottage when the farmer came out and asked what he was going to do with the picture when finished. "I shall send it to an exhibition."

"Will many people see it?" "Thousands, I hope."

"Then perhaps you wouldn't mind putting on it 'To let for the summer months.'"

She watched the door of her new establishment open to admit her first client. Business had started! A good impression must be created upon him. Hurriedly she grouped the telephone receiver and became engaged in an animated conversation. Then an appointment having been arranged she replaced the receiver, and beaming on her customer, asked: "What can I do for you sir?"

A moment's pause, and then: "If you please ma'am, I've come to connect the telephone."

## TENNIS SUPPLIES

## Let Us Do Your Printing?

All business houses need more or less printed matter, all of which is within the possibilities of the local printer. Yet how prone many are to pass up the home printer and let the orders go to city offices which have no interest whatever in rural communities except to get printing orders and the cash to pay for them. Business men, remember that the home paper is constantly promoting the interests of the home community and you owe it to yourself and your local paper to back up these efforts by at least having your printed matter done locally.

WHEN IN NEED OF PRINTED MATTER CONSULT

## A Million Deposit Accounts Denote Confidence

At its offices throughout Canada the Bank of Montreal has over one million deposit accounts.

The depositors, Canadian individuals and Canadian business firms, represent every class of the community in city and country alike—from persons of large means to children starting their life's savings, from industrial corporations of international scope to farmers and small tradesmen.

Good faith, good will and good banking practice on the part of those directing the Bank grow naturally out of the sense of responsibility imposed by this expression of nation-wide confidence.
